

At Smile Design, we consider ourselves an extension of your home. We deeply value the health and safety of all our patients and staff. Currently, we are following specific guidance from the Centers for Disease Control, the American Dental Association, and other state and local agencies. We always follow stringent Department of Health regulations. With the Coronavirus, we will be even more resolute- from hand washing, to providing care, to encouraging employees not to report to work if they feel sick.

While the final impact of this health crisis is ultimately unknown, health and safety are of paramount importance to us. As a result, we have put the following procedures in place to maintain a healthy environment:

- We have increased the frequency of hard surface cleaning and disinfectant.
- Active communication with staff and patients emphasizing everyday preventative actions including proper hygiene and maintaining a clean, sanitized work environment.
- We have provided plentiful sanitation products and discussed in detail hygiene instructions.
- Repeated Occupational Safety and Health Administration.

We would like to “Thank You” for completing this form.
Your health and safety are our number one priority.

In the past 14 days have you had the following:

Cough, sneezing, shortness of breath? Yes _____ No _____
